## 代表性论文

- Heqin Zhan**, Feng Huang, Fulin Yan, Zhenghang Zhao\*, Jixia Zhang, Taizhen Cui, Fan Yang, Guangfan Hai, Xiaoman Jia and Yongji Shi. Alterations in splenic function and gene expression in mice with depressive-like behavior induced by exposure to corticosterone. *Int J Mol Med*, 2017, 39(2):327-336.
- ✓ **Heqin Zhan**, Feng Huang, Wenzhuo Ma, Zhenghang Zhao\*, Haifang Zhang, and Chong Zhang. Protective effect of ginsenoside Rg1 on bleomycin-induced pulmonary fibrosis in rats: involvement of caveolin-1 and TGF- 1 signal pathway. *Biol. Pharm. Bull.*, 2016, 39(8):1284-1292.
- Zhan HQ**, Li PF, Li SY, Yan FL\*, Yang J, Liu RL, Zhang HF. Influence of lactuside B on the expression of AQP4 and TRPM7 mRNAs in the cerebral cortex after cerebral ischemia injury. *Eur Rev Med Pharmacol Sci*, 2014, 18(8):1151-7.
- Li PF, **Zhan HQ\***, Li SY, Liu RL, Yan FL, Cui TZ, Yang YP, Li P, Wang XY Lactuside B decreases aquaporin-4 and caspase-3 mRNA expression in the hippocampus and striatum following cerebral ischaemia-reperfusion injury in rats. *Exp Ther Med*, 2014, 7(3):675-680.
- Heqin Zhan**, Shengying Li, Juan Sun, Ruili Liu, Fulin Yan\*, Bingxuan Niu, Haifang Zhang, Xinyao Wang. Lettuce glycoside B ameliorates cerebral ischemia reperfusion injury by increasing nerve growth factor and neurotrophin-3 expression of cerebral cortex in rats.
- Ma W, Liang F, **Zhan H**, Jiang X, Gao C, Zhang X, Zhang K, Sun Q, Hu H, Zhao Z\*. Activated FMS-like tyrosine kinase 3 ameliorates angiotensin II-induced cardiac remodelling. *Acta Physiol (Oxf)*, 2020, 1:e13519.
- Ma W, Liu M, Liang F, Zhao L, Gao C, Jiang X, Zhang X, **Zhan H**, Hu H, Zhao Z. Cardiotoxicity of sorafenib is mediated through elevation of ROS level and CaMKII activity and dysregulation of calcium homoeostasis. *Basic Clin Pharmacol Toxicol*, 2020, 126(2):166-180.
